

## ***Criminal Investigative Analysis***

# Level up your Investigative Skills

This course will help you gain an understanding of criminal investigative analysis/criminal profiling. This course will examine factors that influence serious violent criminals and their behavior. Throughout this course students will learn the history and methods of criminal investigative analysis/criminal profiling, how to analyze crime scenes for offender behaviors and characteristics utilizing critical thinking, science and logical reasoning. Students will examine various case studies each week focusing on MO/Signature, crime scene behaviors, and crime linkage. This 12-week course will focus on offender typologies, patterns and motives of criminals, offender profiles and the psychological make-up of serial violent offenders.

## **A format for your busy schedule**

This class is held online over 12 weeks. There are no live sessions, so you can complete the work whenever it fits your schedule! If you get busy and can't complete the work, you can transfer to a later session without having to pay the full fee again.

This is an intermediate level course. Students are suggested to have a basic understanding of analytical skills and/or 2-3 years of experience. This is a suggestion only and we will not be verifying your experience level.

## **Why Choose Us**

Each 12-week class is worth 4 points towards CLEA testing eligibility and awards a certificate upon completion.

Online classes are only \$395 for IACA members or \$445 for non-members.

The IACA is the premier source for crime analysis training. Combined, over 2700 analysts have taken an IACA course!

Build a strong foundation of the concepts, techniques, theories, and skills most useful to crime analysts
