

North Richmond Robbery Series – Tactical Analysis

Forecast Analysis:

Target Day of Week and Time of Day:

Based on previous behavior Operations should focus their efforts **Friday through Sunday** between **1600 and 2300 hours** within the identified target location.

Method of Operation:

Between March 2nd and June 22nd a series of robberies were identified within the North Richmond area. Fifteen (15) incidents were identified with similar M.O. factors. Suspects are a group of Black male juveniles ranging in age from 6 to 20 (most between 10 and 17). The suspects approach the victims and physically assault them by hitting and kicking them, also in several cases they used sticks/boards and rocks. In five (5) cases they used handguns and in one (1) case they used a toy handgun. Suspects are targeting primarily Hispanic males traveling alone and on foot. The take is primarily cash, wallets, cell phones and jewelry. Suspects attack quickly and take whatever is visible. In most case the suspects flee the scene on foot towards the North Richmond projects.

Target Location:

In (8) out of the (15) incidents subjects were seen fleeing toward the target area indicated on the pin map. Their direction of travel indicates that the subjects either live or hang out in the identified target area encompassing the North Richmond projects.
