

Exploring Crime Analysis: Readings on Essential Skills (4th edition)

Published in 2026 by the International Association of Crime Analysts

Chapter 1: Fundamentals of Crime Analysis: Terms, Concepts, and Processes 1

Christopher Bruce, Mindy Duong

History of Crime Analysis

Data, Information, and Knowledge

What is Intelligence?

Definition of Crime Analysis

Types of Crime Analysis

Tactical Crime Analysis

Strategic Crime Analysis

Administrative Crime Analysis

Crime Intelligence Analysis

NOT Crime Analysis

The Crime Analysis Process

Data Collection and Management

Data Scanning and Querying

Data Analysis

Information Dissemination

Response

Evaluation and Feedback

The Administration of Crime Analysis

Staffing & Assignments

Organizational & Physical Location

Hiring and Development

Conclusion

References

Chapter 2: Law Enforcement Models 33

Samantha Gwinn, Greg Jones

Intelligence-Led Policing

The Role of Crime Analysis in ILP

Predictive Policing

The Role of Crime Analysis in Predictive Policing

Data-Driven Approaches to Crime and Traffic Safety (DDACTS)

The Role of Crime Analysis in DDACTS

Accountability Model: CompStat

The Role of Crime Analysis in CompStat

Community Policing

The Role of Crime Analysis in Community Policing

Problem-Oriented Policing (POP)

The Role of Crime Analysis in POP

Broken Windows

The Role of Crime Analysis in Broken Windows

Crime Prevention Through Environmental Design: CPTED Model

The Role of Crime Analysis in CPTED

Evidence-Based Policing

Stratified Policing

The Role of Crime Analysis in Stratified Policing

Centralized and Decentralized Analytical Models

Conclusion

References

Chapter 3: Understanding Criminal Behavior 59

Jonathan Alston, Kathleen Gallagher

The Crime Triangle

The Crime Triangle for Crime Analysis

Offender Characteristics

Classification of the Series

Physical Description

Vehicle Description

Crime Description / Sequence of Events

Modus Operandi (M.O.)

Victim or Target Characteristics

Physical Characteristics of Target/Victim

Risk Level

Spatial Characteristics

Initial Contact Scene

Abduction Scene

Assault Scene(s)

Dump Site / Recovery Scene

Theories of Crime

Offenders: Theories of Criminal Behavior

Victims: Theories of Victimology

Places: Theories of Environmental Criminology

The 80/20 Rule

Repeat Offenders

Repeat Victims
Repeat Places (Hot Spots of Crime)

Other Factors Influencing Criminal Behavior

Mental Disorders and Crime
Substance Abuse and Crime

Conclusion

References

Chapter 4: Law Enforcement Data and Crime Analysis Data Sources 92

Cheryl Davis, Rachel Boba Santos

Overview of Types of Data

Qualitative and Quantitative Data
Primary and Secondary Data

Law Enforcement Data Systems

Computer-Aided Dispatch System (CAD)
Records Management System (RMS)
Jail Management System (JMS)

National Law Enforcement Data Clearinghouses

National Crime Information Center (NCIC)
Canadian Police Information Centre (CPIC)
Criminal Justice Information Services (CJIS)

National Law Enforcement Data Sources

Uniform Crime Reports (UCR)
National Incident-Based Reporting Systems (NIBRS)
Other National Law Enforcement Data Sources (English-Speaking Countries)

Key Crime Analysis Databases

Crime Reports
Arrests
Calls for Service
Traffic Collisions
Other Databases

Non-Law Enforcement Data

Division of Motor Vehicles (DMV)
National Crime Victimization Survey (NCVS)

International Crime Victimization Surveys (English-Speaking Countries)

Open-Source Information
Geographic Data

Conclusion

Resources

References

Chapter 5: Crime Analysis Data and Data Management.....111

Christopher Bruce

Data and Database Concepts

- Structured and Unstructured Data
- Relational Databases
- Police Records Management
- Directly Connecting to Data
- Metadata
- Data Security

Crime Analysis Data Sources

Crime Analysis Data Management

- Common Mistakes in Crime Analysis Data Management
- Desktop Databases and Servers
- ODBC/OData and Crime Analysis Data Management
- Data Quality and Cleaning
- Data Supplementation

Asking Questions About Data

- SQL
- Types of Queries
- Expressions and Calculated Fields
- Data Visualization
- Qualitative Data Analysis

Conclusion

References

Chapter 6: Using Excel for Crime Analysis.....144

Jason Elder, Samantha Gwinn, Seth Potts

Limitations

Basic Functionality and Features

- Formulas
- Percent Change
- Extracting Data from a Cell
- Dynamic Array
- Z-Scores
- Threshold Analysis
- UTC to Local Time Conversion
- Absolute References
- Formula Cheat Sheet

Home Ribbon

- Clipboard
- Number
- Conditional Formatting
- Format as Table

Insert Ribbon

- Pivot Tables
- Charts
- Slicers/Dashboards

Data Ribbon

- Get & Transform Data (Power Query)
- Sort & Filter
- Data Tools

View → Window

Automate

Shortcuts/Hotkeys

Status Bar

Tab Options

Levels of Expertise

- Basic
- Intermediate
- Advanced

Best Practices & Conclusion

Chapter 7: Descriptive Statistics173

Jamie Price

Descriptive Statistics

- Levels of Measurement

Distributions

Measures of Central Tendency

- Mean
- Median
- Mode

Measures of Dispersion

- Range
- Variance
- Standard Deviation
- Skewness
- Rates

Proportions, Percentages, and Percent Change

Conclusion

References

Chapter 8: Temporal Analysis193

David Kelly

Measuring Time

Time of Day / Day of Week

Temporal Distribution & Intervals

Tempo
Temporal Cycles & Seasonality
Temporal Crime Data Considerations
Aoristic Analysis
Time Series Analysis / Forecasting

Linear Forecasts

Charting
Temporal Analysis Applications

Strategic Analysis
Tactical Analysis

Conclusion
References

Chapter 9: Business Intelligence and Automation215

Samantha Gwinn, Matthew Harris

Business Intelligence Tools

ArcGIS Dashboards
Tableau
Power BI
Considerations

Data Integration with Power Query

Data Transformation
Connecting to Folders
Connecting to Databases

Data Modeling

Modeling Schemas
Modeling with Date/Calendar Tables
Comparing Microsoft Access to Power BI

Data Visualization

Table view
Model view
Report view
DAX query view
Paginated Reports

Practical Applications

Measures vs calculations
Summarization Methods
Categorization Methods
Custom Visuals
Custom Tooltips
Drill-through and Drill-down
Conditional formatting

Automated Reporting

Automatic Updates

Artificial Intelligence

Adoption

Conclusion

Chapter 10: Crime Mapping and Spatial Analysis.....254

Stacy Belledin

GIS Applications

Geographic Data

GIS Data Management

Attribute and Spatial Queries

Map Symbolology and Visualization

Spatial Analysis

Finding Spatial Patterns

Pattern of Life: The Journey to Crime

Repeat and Near Repeat Victimization

Hot Spot Analysis

Spatiotemporal Analysis

Geographic Profiling

Spatial Regression

Analyzing Risk

Assessing Impact

Crime Mapping Considerations

Data Sharing

Classification Methods

Mapping Beyond Crime

Conclusion

Resources & References

Chapter 11: Applied Research Methods278

John Ng, Karin Schmerler, Deborah Lamm Weisel

Defining Applied Research

Problem-Oriented and Evidence-Based Policing

Problem-Oriented Policing

Experimental Research/Evidence-Based Research

Launching an Applied Research Project

Problem Analysis

Preliminary Problem Analyses – Is it Really a Problem?

Know Your Stakeholders

Do Your Homework - Become an Expert

Review Existing Research

Develop Testable Hypotheses

Use Theory to Formulate Actionable Hypotheses

Construct a Road Map for Data Collection

- Start with Police Data
- Develop Problem-Specific Classifications
- Focus on Specific Types of Locations
- Select the Period for Analysis
- Mine Data Sources
- Recognize Data Limitations
- Access Additional Secondary Data
- Collect Your Own Data
- Collect Data from People
- Collect Data from Places

Tell a Story with Analysis to Guide Action

Evaluating Impact

References & Resources

Chapter 12: Analytical Products307

Michael Winslow, Brittany Winslow, Barbara Brookover

General Considerations for Effective Analytical Products

- Language
- Security
- Time Management

Gathering Information

Effective Writing

- Identification of Audience
- Language
- Analytical Outlines
- Style and Technique
- Communication & Revision

General Best Practices

Charts and Tables

Types of Products

- Criminal Information/Attempt to Locate Bulletins (CIBs/ATLs)
- Series Bulletins
- Maps
- Statistical Reports
- Link Charts
- Timelines
- Work-Ups
- Other Analytical Products

Reflect, Review, and Revise

Conclusion

Resources & References

Chapter 13: Applied Crime Series Analysis.....345

Judy Fernandez, Michele Kennedy

Critical Thinking in Crime Series Analysis

Crime Series Behavior

Subconscious Decision-Making

Modus Operandi (M.O.)

Linkage Analysis

Crime Types

The IZE Method

Categorize (Create variables)

Generalize (Create general values)

Organize (Group variables)

Minimize (Query variables)

Maximize (Expand queries)

Analysis of a Crime Series

Behavior, Space, and Time

Next-Event Prediction

Crime Series Bulletin

Timeliness and Dissemination

Monitor and Update

Discovery and Prosecution

Conclusion

References

Chapter 14: Intelligence Analysis and Charting370

Judy Fernandez, Suzanne Hardin-Campanile

Intelligence

Intelligence Cycle

Intelligence Charting

Telephone Toll Analysis

Timelines

Organizational Charts

Event Flow and Commodity Flow Charts

Social Network Analysis

Intelligence Report Handling

Conclusion

References

Chapter 15: Cell Phone & Digital Evidence Analysis386

Judy Fernandez, Michele Kennedy

Legal Process

Data Request Limitations

Preservation of Data

Device Usage and Attribution

Sources of Digital Evidence

- Cellular Provider Records
- Forensic Extractions
- Mobile App Data
- Vehicle Data

Investigative and Analytic Techniques

- Investigative Leads

Gas Station Theory (GST)

- Device Geolocation
- Corroboration
- Behavior

Report Writing and Peer Review

Conclusion

References

Chapter 16: Forensic Intelligence Analysis.....412

Samantha Gwinn, Michele Kennedy

Introduction

Systems & Stakeholders

Gunshot Detection Systems & Crime Gun Intelligence

- The Analyst's Role in Gun Crime

DNA Intelligence

- CODIS in the United States
- CODIS Hits
- Familial Searching
- Investigative Genetic Genealogy
- The Analyst's Role in DNA Investigations

Conclusion

References

Chapter 17: Analysis for Courts and Prosecution.....431

Rafael Serrano, Julie Wartell, Erin Wickersham

The History of Analysts in Prosecution

What Do Offices with Analysts Look Like?

The Role of Analysts in the Prosecution Process

- Other Considerations

Data and Process

Analytical Products

Case Studies

- Cuyahoga County Prosecutor's Office
- Maricopa County Attorney's Office (MCAO)
- San Diego County District Attorney's Office (SDCDA)

King County District Attorney's Office (KCDA)
Philadelphia District Attorney's Office

Recommendations for Success
Analytical Product Examples

Chapter 18: Organized Crime445

Sandra Bibby, Chris Longino, Scott Peacock, Kelly Pereira

Introduction

Background

Organized Crime Groups

Types of Organized Crime Groups

Drug Trafficking

Human Trafficking

Organized Retail Crime

Current ORT Trends

Cargo Theft

Fraud

Cyber Crime OCGs

Biker Gang OCGs

Environmental Crime

Future Threats

Legal Response to Organized Crime

Analysis of Organized Crime

Legislation and Policy

Partnerships

Conclusion

References

Chapter 19: Crime Analysis for Real-Time Crime Centers & Special Events477

Brenda Cohen, Carolyn Montagna, Nikki North

Introduction

Defining a Real-Time Crime Center

Tactical Focus

RTCC Mission & Strategy

Benefits and Impacts

RTCC Staffing

Sworn Officers

Professional Staff

Hybrid Model

Essential Analytical Skills

Requirements of RTCC Analysts

Relationship Building

Open-Source Information

GIS/Mapping

RTCC Technology

Technology in Real-Time

Automated License Plate Readers (ALPRs)

Traffic Cameras

Gunshot Detection Systems

Dashcams and Body-Worn Cameras

Crime Analysis for Special Events

Incident Command

The Importance of the Debrief

Conclusion

References & Resources

Chapter 20: Navigating the Profession492

Angela Backer-Hines, Mindy Duong

Getting an Entry-Level Position

Breaking Down a Job Bulletin

Catering Your Resume to the Position

Standing Out in the Application Process

Additional Questions

The Benefits of a Portfolio

Interview Tips & Tricks

You Got the Job, Now What?

Get Familiar with Your Data

Effective Verbal and Nonverbal Communication

Building Rapport

Information Sharing

Storytelling with Products

Email Etiquette

Balancing an Endless To-Do List

Career Development and Advancement

Professional Development Roadmap

Analysis Unit Development Center
