

# Crime Mapping I: GIS Fundamentals

May 11 - 15, 2026  
Springfield, IL

Crime Mapping I: GIS Fundamentals is a four and a half day, hands-on computer-based course that covers the fundamentals of mapping crime for tactical, strategic, administrative, and operations analysis. After a review of the terminology and concepts of crime mapping, the class plunges directly into hands-on exercises using ArcGIS Pro.

Students learn how to explore base maps, import or link to police data, geocode addresses, perform spatial and attribute queries, create thematic maps, interpret crime maps, and create effective mapping products.

***\*\* Students are required to bring their own laptop with the ability to install ArcGIS Pro, a link with the technical requirements will be sent at the time of registration\*\****

## Course Instructor:

**Stacy Belledin** - Stacy Belledin is the owner and director of Amplified Analysis Solutions, LLC, an organization dedicated to the enhancement of analytical capabilities for public safety agencies around the globe. Stacy is an expert in the public safety field with over 23 years of experience in law enforcement, crime analysis, GIS, and training. As the owner and director of Amplified Analysis Solutions, she specializes in analysis unit needs assessments, departmental data and technology needs, GIS/spatial analysis, and analytical training. Stacy previously worked for Esri as a consultant, instructor, and writer of public safety training courses, and was a crime analyst for the Jacksonville (FL) Sheriff's Office and Lakewood (CO) Police Department. She has trained hundreds of analysts throughout the years as an adjunct professor at Tiffin University, Arizona State University, and as an instructor with the International Association of Crime Analysts (IACA) and the Crime Mapping and Analysis Program (CMAP). Stacy holds a Master's degree in Criminology and Criminal Justice Studies from Florida State University and a Bachelor's degree in Criminal Justice from Indiana University.
