

# Tactical Crime Analysis

March 15 - 20, 2026

Springfield, IL

Tactical Crime Analysis is a four-and-a-half-day, analyst-focused workshop designed to build practical skills for identifying, analyzing, and responding to crime patterns and series. The course emphasizes how analysts support operational decision-making by detecting emerging patterns, analyzing their key characteristics, and developing actionable recommendations for law enforcement response.

Building on core concepts typically introduced in a fundamentals-level course, participants apply theory, critical thinking, and analytical techniques to real-world crime scenarios using hands-on exercises and a comprehensive capstone project.

## Course Instructor:

**Stacy Belledin** - Stacy Belledin is the owner and director of Amplified Analysis Solutions, LLC, an organization dedicated to the enhancement of analytical capabilities for public safety agencies around the globe. Stacy is an expert in the public safety field with over 23 years of experience in law enforcement, crime analysis, GIS, and training. As the owner and director of Amplified Analysis Solutions, she specializes in analysis unit needs assessments, departmental data and technology needs, GIS/spatial analysis, and analytical training. Stacy previously worked for Esri as a consultant, instructor, and writer of public safety training courses, and was a crime analyst for the Jacksonville (FL) Sheriff's Office and Lakewood (CO) Police Department. She has trained hundreds of analysts throughout the years as an adjunct professor at Tiffin University, Arizona State University, and as an instructor with the International Association of Crime Analysts (IACA) and the Crime Mapping and Analysis Program (CMAP). Stacy holds a Master's degree in Criminology and Criminal Justice Studies from Florida State University and a Bachelor's degree in Criminal Justice from Indiana University.
